NOTE

The manuscript for *SMC—A School of His Planning* has been completed. There are 230 pictures which will help you remember those yesterdays. When the manuscript goes to press the Alumni will be informed.

One of the purposes of the Alumni Association is to foster loyalty and devotion to this movement, to our school and to one another. In these uncertain days let us resolve anew to be true to the high principles set before us. In your private devotions remember this school of His planning.

Personal Goals for 1962

By HARRY HULSEY, *President, SMC Alumni Association*

During the final days and weeks of a rapidly expanding year, one almost automatically muses through an appraisal of his experiences of the preceding months. Was each problem handled with wisdom and discretion? Were my financial obligations met satisfactorily? Have I rendered a conscientious service to the Lord? Have I been alert to opportunities for service to my fellow man? How stable were my own devotional practices? How can I improve during the coming untried months?

At this juncture, there are three questions which we might profitably consider:

Have my experiences of 1961 prepared me for a fuller, more prolific life during the year to come?

What are my personal goals for 1962, spiritually, socially, financially, intellectually?

What might God expect me to accomplish during 1962 with the talents He has bequeathed to me?

If our past is somewhat discouraging, we may still face the future with confidence by "forgetting those things which are behind and reaching forth unto those things which are before." If there are mistakes for which reparations are due we should take immediate measures to make right all that is within our power. Matters that are beyond our power to change are best relegated to memory's archives. No man can have an exuberant Christian experience while brooding over an irretrievable past.

Certainly our own personal goals should, for best results, coincide with God's plan for us. "If we consent, He will so identify Himself with our thoughts and aims, so blend our hearts and minds into conformity to His will, that when obeying Him we shall be but carrying out our own impulses."

Destiny of Ages, page 668. This passage tells us that "Those who decide to do nothing in any line that will displease God, will know, after presenting

their case before Him, just what course to pursue. And they will receive not only wisdom, but strength."

That's my cue, fellow Alumni, for 1962. Since the days of Eden there has surely never been a time more challenging than now. "In the word of God the curtain is drawn aside, and we behold, above, behind, and through all the play and counterplay of human interest and power and passions, the agencies of the all-merciful One, silently, patiently working out the counsels of His own will." *Prophets and Kings*, page 500.

The sinless inhabitants of unfallen worlds are looking with bated breath at the rapid, climactic developments of the Great Controversy. They are joyously anticipating the hastening event when Christ shall introduce His redeemed throngs from earth into the blissful eternity of Heaven. Let's resolve to be there through His grace.

Far-off-Lands

Thailand

Johnny Harris '55, and his wife and two sons are in Bangkok, Thailand. While studying the Thai language Johnny has been working with the student nurses and laboratory technicians in the Bangkok Sanitarium. Following a series of studies at the clinic a question period for those interested was announced. About eleven were expected, but forty-five came. Because of the uncertainty of world conditions, the native workers are being trained to carry on the work.

Soon the Harris family will go to an island where the mission has a clinic about ten miles from the coast. There they will start evangelistic work.

Louis Ludington from Bangkok, Thailand, Sanitarium was a guest at the October 14 Homecoming. He came to the United States to attend the College of Surgeons and to complete his American Board in chest surgery. He had not been able to complete this test 18 months ago because that section was given on the Sabbath. He spoke to the alumni Friday night a few minutes before the scheduled sermon by Fred Veltman.

Caribbean Union

James Fulfer '50, is the president of the Caribbean Union. There are more than 21,000 members in the union. A large part of the union is on various islands. A trip with Elder Fulfer to the missions in that union would be a thrilling experience to his classmates!

West Africa

Edward Collins '51, is librarian and registrar and teaches Bible and English composition at our college in West Africa. It is a new college in its third year of operation. The former Dean of Madison College, H. J. Welch, is the principal. The college is small and offers a three year course in theology and English. They hope to be given permission soon to grant degrees through affiliation with one of our colleges in the United States.

The Collins have been on furlough and when they returned to Africa they had the joy of taking with them adopted twin daughters one year old.

Alumni Homecoming

By BILL HULSEY

The week end of October 14 saw many familiar faces on the campus of our Alma Mater. Friday was a beautiful autumn day with a tinge of color on the trees, and the warmth of the sun was typical of Indian summer. It did my heart good to see the arrival of our visiting alumni, eager to look over the grounds and greet both old friends and new on this very special occasion.

White Oak Ridge cast its lengthy shadows across the valley of Colledgeale. The dormitory girls began an exodus from their newly established home as did the men of Talge and Jones Hall. Community talks and visiting friends joined them as they merged at the Tabernacle-Auditorium for the favorite of all religious meetings, the Friday evening Vespers. It was an inspiration to hear the blend of voices singing praises to the Creator on these first few moments of another memorial of His creation. Don Crook's melodious voice set the pitch for this phase of our worship.

On this special occasion each year it has become traditional to pay honor to our alumni missionaries during our Vesper hour. Harry Hulsey presented the Mission Book this year, giving the names and mission territory to which seven of our alumni and their families had been called during the preceding year. (See this listing on page 4.)

We felt extremely honored to have with us for this mission presentation Dr. Louis Ludington. Dr. Ludington is an alumnus who is now serving his second term in the mission field of Thailand. He is the medical director of the Bangkok Sanitarium and Hospital, which is the largest mission hospital operated by our denomination. It was through his personal enthusiasm and report that all were reassured that the aim of our college to prepare students for mission work and world service is a high and noble goal.

It was in 1956 that our main speaker, Elder Fred Veltman, ended his term of mission service to that little island of Cyprus where Paul, the apostle, first began his mission tours some 1900 years ago. After the Veltman's return to the states, they pastored for a while in the Carolina Conference. Fred is now the assistant dean of men at EMC and is working on his doctor's degree at Andrew's

University. It was from this background of experience that Elder Veltman inspired each of us to a more positive dedication to the cause in which we all believe.

To Adventist believers Sabbath School has become a way of life. It is not necessary, even for visitors, to ask if or when, but only to inquire where Sabbath School is to be held. It would be only the early pioneer students who would not recall the meeting places for our College Sabbath Schools. Yes, we all felt right at home as we assembled once again in the Tabernacle. Dr. Dewitt Bowen was the superintendent for our meeting. A phase of this program that dates back further than most of us can remember is our missions promotion. Dr. George Tolhurst, who has just recently returned from a tenure of service on Okinawa, was present to lodge his most earnest appeal for our all-out support for the mission work.

The sacred service at eleven o'clock was an inspiration to all. The speaker for this important gathering was Elder J. J. Millett. After graduation in 1953, Elder Millett accepted a call to Louisiana to fulfill a burden for the folks of the bayous of that conference. He later went to the northeastern section of the country to serve as an evangelist in the New Jersey Conference. We are glad that Elder Millett and his evangelistic team are back in our own conference in an effective, dynamic crusade for Christ.

The week end was filled with many good things, not the least of which was the afternoon sacred musical program under the direction of Mrs. Dorothy Ackerman and Prof. Raymond Kuutti of the music department. Both faculty and students participated to render melodious praises to our Maker.

As the busy day was drawing to a close, ending another spiritually profitable Sabbath, the alumni assembled in the college cafeteria for their annual supper and business meeting. Elder V. W. Esquilla of the Illinois Conference, brought to us a few appropriate devotional thoughts. The group sang, "Day Is Dying in the West." And thus was drawn to a close those sacred hours of another Sabbath.

The items of business were transacted under the chairmanship of Bill

Hulsey, Alumni Association president. The ballots were cast to elect officers for the 1961-62 term. In addition to the regularly elected officers, our constitution calls for the appointment, by the college, of one college employee to serve as a liaison officer for the alumni. It was in this capacity that William Taylor, director of alumni relations, spoke to our group, encouraging our members to keep our organization active.

The information compiled from the questionnaires that were distributed indicated a unanimous approval of our entrance sign project depicted in our last bulletin. As you may recall from the last quarter's article that this project will cost about \$2,500. This, of course, will require the financial backing of all of our members. We received 17 pledges amounting to \$525, \$370 of which was earmarked for this project. I am sure that you would be interested to know that in addition to there being \$1,277 in outstanding pledges, our association has out in current student loans \$2,325. The treasurer's record shows, on hand for the student loan fund, \$1,483.47, while the sign project shows only \$128 cash plus the above pledges. Let's get behind this very fine contribution to our Alma Mater and raise the \$2,500 for this project.

Before our supper and business meeting could be concluded, the Tabernacle was filled again. The crowd was such that it became necessary to reserve a section of seats for our visiting alumni. Stan Midgely, with his travelogue, is noted for his ability to draw a capacity audience. Our alumni were invited guests to travel with Stan on his delightful picture tour of "Colorado, Today and Yesterday."

It was a weary but satisfied group who sought the comfort of their beds after a long busy day of shaking hands with old friends, being inspired by the various meetings, and entertained by a good travelogue. Why don't you start planning right now to attend Homecoming next year?

It has been a unique pleasure for me to serve this past year as your president. We have a wonderful opportunity, both as individuals and as members of our association, to promote and help our Alma Mater and the cause in which we all believe. May the Lord's richest blessings rest upon our new officers and each member as we go forward in faith to complete the Master's assignment for us in the earth.

SMC Alumni Association Continues Progress

WILLIAM H. TAYLOR, *Director of Alumni Relations*

In terms of senior college status, Southern Missionary College is a young college. One of the concepts that students and faculty members appreciate about SMC is that it is young enough not to have any long-standing traditions other than progress. Its program is flexible, adaptable, and enterprising.

Your Alumni Association is trying to emulate this tradition of progress in its reorganization and in its activities this year. In doing the self-study for the re-evaluation for the Southern Association of Colleges and Secondary Schools, the alumni officers and the administration of SMC tried to work out a closer liaison among the alumni, the college, and the students.

Dr. C. N. Rees, SMC's president, announced recently that the Alumni Association, the public relations office, and the development or fund-raising office would be coordinated under one director who would be known as the director of college relations; thus, those areas that are related would come under the administrative officer who would serve in all of these capacities. It was thought that, as the college grew, several people might be needed

in these various offices, so the organization was left flexible with one person handling these duties at the present time.

The college has long-range plans for fund raising and development, and an announcement about the appointment of a development director will be forthcoming shortly, according to the president. If SMC is to continue its present rate of growth and progress, it must have funds outside of those in its regular capital and operating budgets. It is thought that the general public would be contacted, as well as the alumni, and it is hoped that the over-all program would be explained in such a way that the general public, as well as the alumni, would be acquainted with the operation of the college and its plans for new buildings and improvements.

Recently, the Board of Trustees voted to proceed in March with the construction of a new shopping center. It is hoped that the shopping center, which will house a super market, College Dale Distributors, the Southern

Mercantile, restaurant, barber shop, Post Office, etc., would be finished by the time the college year opens in September, 1962.

In April it is planned that the college barn and chicken houses will be cleared out to make room for the further expansion of the college on that land. The alumni project, a sign for the campus, can be built when the funds have been received by the college. It is hoped that this sign will go up sometime before the beginning of the next college year. If you have pledged or plan to give to this project, the alumni officers would appreciate receiving your gift. Any amount, large or small, would be sincerely appreciated.

Mr. Harry Hulsey, the new president of the international organization, will be glad to receive any requests or suggestions from any of you. The director of alumni relations will be glad to communicate with any of you about any of the requests or any of the questions which you may have. Please feel free to write either one of us at your convenience. We want, and sincerely pray, that your Alumni Association will continue to carry on its work in such a way that God can bless the alumni and their Alma Mater.
